

D. Policy with Respect to AIDS

1. A student who is diagnosed with AIDS or HIV (Human Immunodeficiency Virus) shall be treated with the same respect and dignity as all other students. The University shall provide appropriate accommodations to ensure that such students can fully participate in the educational process.
2. The University shall provide information and resources to help students understand the risks of HIV/AIDS and how to prevent infection.
3. The University shall provide confidential counseling and support services to students who are affected by HIV/AIDS.
