

Department of Sociology

General Interest Courses

Students who are interested in sociology but do not intend to major in sociology should consider the following General Interest Courses. These courses are designed to provide students with a broad understanding of sociology and its applications. For more information, please contact the Department of Sociology.

Minor in Sociology

Students who are interested in sociology but do not intend to major in sociology should consider the following Minor in Sociology. This minor is designed to provide students with a broad understanding of sociology and its applications. For more information, please contact the Department of Sociology.

Major in Sociology

Students who are interested in sociology and intend to major in sociology should consider the following Major in Sociology. This major is designed to provide students with a broad understanding of sociology and its applications. For more information, please contact the Department of Sociology.

- 1. SOC 101: Introduction to Sociology
- 2. SOC 102: Social Research Methods
- 3. SOC 103: Sociology of the Family
- 4. SOC 104: Sociology of the Community
- 5. SOC 105: Sociology of the Culture
- 6. SOC 106: Sociology of the Economy
- 7. SOC 107: Sociology of the Law

Honours in Sociology

Students who are interested in sociology and intend to major in sociology should consider the following Honours in Sociology. This honours program is designed to provide students with a broad understanding of sociology and its applications. For more information, please contact the Department of Sociology.

- 1. SOC 401: Honors Thesis
- 2. SOC 402: Honors Seminar
- 3. SOC 403: Honors Research Methods
- 4. SOC 404: Honors Sociology of the Family
- 5. SOC 405: Honors Sociology of the Community
- 6. SOC 406: Honors Sociology of the Culture
- 7. SOC 407: Honors Sociology of the Economy
- 8. SOC 408: Honors Sociology of the Law
- 9. SOC 409: Honors Sociology of the Environment
- 10. SOC 410: Honors Sociology of the Health

Students who are interested in sociology and intend to major in sociology should consider the following Honors in Sociology. This honours program is designed to provide students with a broad understanding of sociology and its applications. For more information, please contact the Department of Sociology.

SOCI-2123. Introduction to Sociology of Globalization

© 2013 St. Thomas University. All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying, recording, or by any information storage and retrieval system, without the prior written permission of St. Thomas University.

SOCI-2743. Special Topics

Special topics in sociology. Topics may include: Gender, Race, Ethnicity, Social Stratification, Social Change, Social Movements, and Social Theory.

SOCI-3023. Contemporary Sociological Theory

Contemporary sociological theory. Topics may include: Symbolic Interactionism, Ethnomethodology, and Postmodernism.

SOCI-3153. Sociology of War

Examines the causes of war, the nature of war, and the impact of war on society. Topics include: the nature of war, the causes of war, the impact of war on society, the role of religion in war, the role of technology in war, the role of the media in war, the role of the economy in war, the role of the environment in war, the role of the culture in war, the role of the politics in war, the role of the law in war, the role of the ethics in war, the role of the philosophy in war, the role of the psychology in war, the role of the sociology in war, the role of the anthropology in war, the role of the linguistics in war, the role of the history in war, the role of the geography in war, the role of the meteorology in war, the role of the astronomy in war, the role of the biology in war, the role of the chemistry in war, the role of the physics in war, the role of the mathematics in war, the role of the computer science in war, the role of the information science in war, the role of the engineering in war, the role of the architecture in war, the role of the design in war, the role of the art in war, the role of the music in war, the role of the dance in war, the role of the theater in war, the role of the film in war, the role of the television in war, the role of the radio in war, the role of the internet in war, the role of the mobile phone in war, the role of the social media in war, the role of the video game in war, the role of the virtual reality in war, the role of the artificial intelligence in war, the role of the nanotechnology in war, the role of the biotechnology in war, the role of the space technology in war, the role of the nuclear technology in war, the role of the chemical technology in war, the role of the biological technology in war, the role of the medical technology in war, the role of the agricultural technology in war, the role of the industrial technology in war, the role of the transportation technology in war, the role of the energy technology in war, the role of the environmental technology in war, the role of the information technology in war, the role of the communication technology in war, the role of the manufacturing technology in war, the role of the construction technology in war, the role of the transportation technology in war, the role of the energy technology in war, the role of the environmental technology in war, the role of the information technology in war, the role of the communication technology in war, the role of the manufacturing technology in war, the role of the construction technology in war.

SOCI-3173. Women and Education (WSGS)

Examines the role of women in education and the impact of education on women. Topics include: the role of women in education, the impact of education on women, the role of women in the workforce, the impact of the workforce on women, the role of women in the family, the impact of the family on women, the role of women in the community, the impact of the community on women, the role of women in the economy, the impact of the economy on women, the role of women in the culture, the impact of the culture on women, the role of women in the politics, the impact of the politics on women, the role of women in the law, the impact of the law on women, the role of women in the ethics, the impact of the ethics on women, the role of women in the philosophy, the impact of the philosophy on women, the role of women in the psychology, the impact of the psychology on women, the role of women in the sociology, the impact of the sociology on women, the role of women in the anthropology, the impact of the anthropology on women, the role of women in the linguistics, the impact of the linguistics on women, the role of women in the history, the impact of the history on women, the role of women in the geography, the impact of the geography on women, the role of women in the meteorology, the impact of the meteorology on women, the role of women in the astronomy, the impact of the astronomy on women, the role of women in the biology, the impact of the biology on women, the role of women in the chemistry, the impact of the chemistry on women, the role of women in the physics, the impact of the physics on women, the role of women in the mathematics, the impact of the mathematics on women, the role of women in the computer science, the impact of the computer science on women, the role of women in the information science, the impact of the information science on women, the role of women in the engineering, the impact of the engineering on women, the role of women in the architecture, the impact of the architecture on women, the role of women in the design, the impact of the design on women, the role of women in the art, the impact of the art on women, the role of women in the music, the impact of the music on women, the role of women in the dance, the impact of the dance on women, the role of women in the theater, the impact of the theater on women, the role of women in the film, the impact of the film on women, the role of women in the television, the impact of the television on women, the role of women in the radio, the impact of the radio on women, the role of women in the internet, the impact of the internet on women, the role of women in the mobile phone, the impact of the mobile phone on women, the role of women in the social media, the impact of the social media on women, the role of women in the video game, the impact of the video game on women, the role of women in the virtual reality, the impact of the virtual reality on women, the role of women in the artificial intelligence, the impact of the artificial intelligence on women, the role of women in the nanotechnology, the impact of the nanotechnology on women, the role of women in the biotechnology, the impact of the biotechnology on women, the role of women in the space technology, the impact of the space technology on women, the role of women in the nuclear technology, the impact of the nuclear technology on women, the role of women in the chemical technology, the impact of the chemical technology on women, the role of women in the biological technology, the impact of the biological technology on women, the role of women in the medical technology, the impact of the medical technology on women, the role of women in the agricultural technology, the impact of the agricultural technology on women, the role of women in the industrial technology, the impact of the industrial technology on women, the role of women in the transportation technology, the impact of the transportation technology on women, the role of women in the energy technology, the impact of the energy technology on women, the role of women in the environmental technology, the impact of the environmental technology on women, the role of women in the information technology, the impact of the information technology on women, the role of women in the communication technology, the impact of the communication technology on women, the role of women in the manufacturing technology, the impact of the manufacturing technology on women, the role of women in the construction technology, the impact of the construction technology on women.

SOCI-3183. Sociology, the Self & the Other

Examines the relationship between the self and the other in society. Topics include: the relationship between the self and the other, the role of the self in society, the role of the other in society, the impact of the self on the other, the impact of the other on the self, the role of the self in the family, the role of the other in the family, the impact of the self on the family, the impact of the other on the family, the role of the self in the community, the role of the other in the community, the impact of the self on the community, the impact of the other on the community, the role of the self in the economy, the role of the other in the economy, the impact of the self on the economy, the impact of the other on the economy, the role of the self in the culture, the role of the other in the culture, the impact of the self on the culture, the impact of the other on the culture, the role of the self in the politics, the role of the other in the politics, the impact of the self on the politics, the impact of the other on the politics, the role of the self in the law, the role of the other in the law, the impact of the self on the law, the impact of the other on the law, the role of the self in the ethics, the role of the other in the ethics, the impact of the self on the ethics, the impact of the other on the ethics, the role of the self in the philosophy, the role of the other in the philosophy, the impact of the self on the philosophy, the impact of the other on the philosophy, the role of the self in the psychology, the role of the other in the psychology, the impact of the self on the psychology, the impact of the other on the psychology, the role of the self in the sociology, the role of the other in the sociology, the impact of the self on the sociology, the impact of the other on the sociology, the role of the self in the anthropology, the role of the other in the anthropology, the impact of the self on the anthropology, the impact of the other on the anthropology, the role of the self in the linguistics, the role of the other in the linguistics, the impact of the self on the linguistics, the impact of the other on the linguistics, the role of the self in the history, the role of the other in the history, the impact of the self on the history, the impact of the other on the history, the role of the self in the geography, the role of the other in the geography, the impact of the self on the geography, the impact of the other on the geography, the role of the self in the meteorology, the role of the other in the meteorology, the impact of the self on the meteorology, the impact of the other on the meteorology, the role of the self in the astronomy, the role of the other in the astronomy, the impact of the self on the astronomy, the impact of the other on the astronomy, the role of the self in the biology, the role of the other in the biology, the impact of the self on the biology, the impact of the other on the biology, the role of the self in the chemistry, the role of the other in the chemistry, the impact of the self on the chemistry, the impact of the other on the chemistry, the role of the self in the physics, the role of the other in the physics, the impact of the self on the physics, the impact of the other on the physics, the role of the self in the mathematics, the role of the other in the mathematics, the impact of the self on the mathematics, the impact of the other on the mathematics, the role of the self in the computer science, the role of the other in the computer science, the impact of the self on the computer science, the impact of the other on the computer science, the role of the self in the information science, the role of the other in the information science, the impact of the self on the information science, the impact of the other on the information science, the role of the self in the engineering, the role of the other in the engineering, the impact of the self on the engineering, the impact of the other on the engineering, the role of the self in the architecture, the role of the other in the architecture, the impact of the self on the architecture, the impact of the other on the architecture, the role of the self in the design, the role of the other in the design, the impact of the self on the design, the impact of the other on the design, the role of the self in the art, the role of the other in the art, the impact of the self on the art, the impact of the other on the art, the role of the self in the music, the role of the other in the music, the impact of the self on the music, the impact of the other on the music, the role of the self in the dance, the role of the other in the dance, the impact of the self on the dance, the impact of the other on the dance, the role of the self in the theater, the role of the other in the theater, the impact of the self on the theater, the impact of the other on the theater, the role of the self in the film, the role of the other in the film, the impact of the self on the film, the impact of the other on the film, the role of the self in the television, the role of the other in the television, the impact of the self on the television, the impact of the other on the television, the role of the self in the radio, the role of the other in the radio, the impact of the self on the radio, the impact of the other on the radio, the role of the self in the internet, the role of the other in the internet, the impact of the self on the internet, the impact of the other on the internet, the role of the self in the mobile phone, the role of the other in the mobile phone, the impact of the self on the mobile phone, the impact of the other on the mobile phone, the role of the self in the social media, the role of the other in the social media, the impact of the self on the social media, the impact of the other on the social media, the role of the self in the video game, the role of the other in the video game, the impact of the self on the video game, the impact of the other on the video game, the role of the self in the virtual reality, the role of the other in the virtual reality, the impact of the self on the virtual reality, the impact of the other on the virtual reality, the role of the self in the artificial intelligence, the role of the other in the artificial intelligence, the impact of the self on the artificial intelligence, the impact of the other on the artificial intelligence, the role of the self in the nanotechnology, the role of the other in the nanotechnology, the impact of the self on the nanotechnology, the impact of the other on the nanotechnology, the role of the self in the biotechnology, the role of the other in the biotechnology, the impact of the self on the biotechnology, the impact of the other on the biotechnology, the role of the self in the space technology, the role of the other in the space technology, the impact of the self on the space technology, the impact of the other on the space technology, the role of the self in the nuclear technology, the role of the other in the nuclear technology, the impact of the self on the nuclear technology, the impact of the other on the nuclear technology, the role of the self in the chemical technology, the role of the other in the chemical technology, the impact of the self on the chemical technology, the impact of the other on the chemical technology, the role of the self in the biological technology, the role of the other in the biological technology, the impact of the self on the biological technology, the impact of the other on the biological technology, the role of the self in the medical technology, the role of the other in the medical technology, the impact of the self on the medical technology, the impact of the other on the medical technology, the role of the self in the agricultural technology, the role of the other in the agricultural technology, the impact of the self on the agricultural technology, the impact of the other on the agricultural technology, the role of the self in the industrial technology, the role of the other in the industrial technology, the impact of the self on the industrial technology, the impact of the other on the industrial technology, the role of the self in the transportation technology, the role of the other in the transportation technology, the impact of the self on the transportation technology, the impact of the other on the transportation technology, the role of the self in the energy technology, the role of the other in the energy technology, the impact of the self on the energy technology, the impact of the other on the energy technology, the role of the self in the environmental technology, the role of the other in the environmental technology, the impact of the self on the environmental technology, the impact of the other on the environmental technology, the role of the self in the information technology, the role of the other in the information technology, the impact of the self on the information technology, the impact of the other on the information technology, the role of the self in the communication technology, the role of the other in the communication technology, the impact of the self on the communication technology, the impact of the other on the communication technology, the role of the self in the manufacturing technology, the role of the other in the manufacturing technology, the impact of the self on the manufacturing technology, the impact of the other on the manufacturing technology, the role of the self in the construction technology, the role of the other in the construction technology, the impact of the self on the construction technology, the impact of the other on the construction technology.

SOCI-3223. Globalization and Gender (WSGS)

Examines the impact of globalization on gender. Topics include: the impact of globalization on gender, the role of gender in globalization, the role of globalization in gender, the impact of globalization on the family, the impact of globalization on the community, the impact of globalization on the economy, the impact of globalization on the culture, the impact of globalization on the politics, the impact of globalization on the law, the impact of globalization on the ethics, the impact of globalization on the philosophy, the impact of globalization on the psychology, the impact of globalization on the sociology, the impact of globalization on the anthropology, the impact of globalization on the linguistics, the impact of globalization on the history, the impact of globalization on the geography, the impact of globalization on the meteorology, the impact of globalization on the astronomy, the impact of globalization on the biology, the impact of globalization on the chemistry, the impact of globalization on the physics, the impact of globalization on the mathematics, the impact of globalization on the computer science, the impact of globalization on the information science, the impact of globalization on the engineering, the impact of globalization on the architecture, the impact of globalization on the design, the impact of globalization on the art, the impact of globalization on the music, the impact of globalization on the dance, the impact of globalization on the theater, the impact of globalization on the film, the impact of globalization on the television, the impact of globalization on the radio, the impact of globalization on the internet, the impact of globalization on the mobile phone, the impact of globalization on the social media, the impact of globalization on the video game, the impact of globalization on the virtual reality, the impact of globalization on the artificial intelligence, the impact of globalization on the nanotechnology, the impact of globalization on the biotechnology, the impact of globalization on the space technology, the impact of globalization on the nuclear technology, the impact of globalization on the chemical technology, the impact of globalization on the biological technology, the impact of globalization on the medical technology, the impact of globalization on the agricultural technology, the impact of globalization on the industrial technology, the impact of globalization on the transportation technology, the impact of globalization on the energy technology, the impact of globalization on the environmental technology, the impact of globalization on the information technology, the impact of globalization on the communication technology, the impact of globalization on the manufacturing technology, the impact of globalization on the construction technology.

SOCI-3243. Sociology of M (gy 4 (tin) subNa 0[deiab themde8 0 0 7.8 36 24 (t) ()JIT (en-US)41.S)/

SOCI-3293. Animals & Society

Students will explore the relationship between humans and animals in various social contexts. The course will examine the role of animals in human culture, the impact of human activities on animals, and the ethical implications of animal use. The course will also explore the role of animals in human health and well-being.

SOCI-3313. Sociology of Law (CRIM)

Students will explore the relationship between law and society. The course will examine the role of law in human culture, the impact of human activities on law, and the ethical implications of law. The course will also explore the role of law in human health and well-being.

SOCI-3323. Sociology of Women and Law (WSGS)

Students will explore the relationship between women and law. The course will examine the role of law in human culture, the impact of human activities on law, and the ethical implications of law. The course will also explore the role of law in human health and well-being.

SOCI-3413. Employment Equity Policy and Gender Inequality at Work (WSGS)

Students will explore the relationship between employment equity policy and gender inequality at work. The course will examine the role of employment equity policy in human culture, the impact of human activities on employment equity policy, and the ethical implications of employment equity policy. The course will also explore the role of employment equity policy in human health and well-being.

SOCI-3513. Sociology of Education

Students will explore the relationship between education and society. The course will examine the role of education in human culture, the impact of human activities on education, and the ethical implications of education. The course will also explore the role of education in human health and well-being.

SOCI-3523. Sociology of Knowledge

Students will explore the relationship between knowledge and society. The course will examine the role of knowledge in human culture, the impact of human activities on knowledge, and the ethical implications of knowledge. The course will also explore the role of knowledge in human health and well-being.

SOCI-3553. Sociology of the Body

Students will explore the relationship between the body and society. The course will examine the role of the body in human culture, the impact of human activities on the body, and the ethical implications of the body. The course will also explore the role of the body in human health and well-being.

SOCI-3733. Special Topics

Special Topics courses are designed to provide students with an in-depth study of a specific area of sociology. These courses are typically one semester in length and are offered on an occasional basis.

SOCI-3913. Sociology of Disease

This course examines the social and cultural aspects of disease, including the historical and contemporary perspectives on the social construction of illness. Topics include the sociology of mental illness, the medicalization of everyday life, and the impact of social structures on health and disease. The course also explores the role of social networks and community in the prevention and treatment of disease.

SOCI-3973. Introduction to Narrative and Narrative Analysis (SCWK)

This course introduces students to the theory and practice of narrative analysis. It explores the ways in which individuals and groups use narrative to make sense of their experiences and to construct their social identities. The course covers the historical development of narrative analysis and its application in various fields, including sociology, psychology, and education.

SOCI-4043. Independent Study

Course | Independent Study | The student will be assigned a faculty member to guide the student through the independent study process. The student will be required to complete a research paper and a final presentation. The student will be required to complete a final report and a final presentation. The student will be required to complete a final report and a final presentation.

SOCI-4053. Independent Study

Course | Independent Study | The student will be assigned a faculty member to guide the student through the independent study process. The student will be required to complete a research paper and a final presentation. The student will be required to complete a final report and a final presentation. The student will be required to complete a final report and a final presentation.

NOTE: Not all courses listed are offered each year. Please consult with the Department Chair for more information about current and planned course offerings.
